

Chess Club

Friday

Why should your child play chess?

- ❖ Studies by Temple University have shown that two years of formal chess education can improve a child's academic performance by one letter grade and between 5 and 15 IQ points. The state of Utah offers chess education in every elementary school in the state. Give your child the benefits of a classical chess education by signing up for the Fall Semester of SMS after school chess.

About the Instructor

Steve Perea

- ❖ NMAA Chess Director
- ❖ USCF Certified Chess Coach and TD

Structure

- ❖ This class is for all levels of players. Beginners may learn the rules, intermediate players can play in class tournaments, and advanced players can try out for the Sunset Mesa Chess Team.
